Invertebrate Supply Unit (ISU) Price List

Explore more with Fera's Invertebrate Supply Unit (ISU)

At Fera Science Limited we can support Entomologists by breeding and maintaining invertebrate colonies in our Invertebrate Supply Unit (ISU).

The ISU maintains over 30 different invertebrate species to GLP standards, within our Animal Facility in Sand Hutton, York. The majority of these species are available for purchase subject to availability.

The species available include:

Beetles

House Fly

True Bugs

Moths

Mites

Beetles
